

COSHH Awareness

Course Code: M/H/018

Course Aims: This course is designed to provide delegates with an appreciation and understanding of hazardous substances within the work place and how they are to be effectively controlled. The course also outlines the duties of employers and employees, procedures required to demonstrate control and emergency procedures designed to regain control.

Suitable For: Supervisors, Managers, Operatives

Duration: 1 Day

Location: Corby UK

Accrediting Body: IOSH

Course Outline

Qualification attainable:

Course Content:

- Understanding CHIP and how substances are assigned categories of danger
- Understanding the basics of toxicology and routes of entry into the body
- The concept of hazards and risk
- How risk is assessed
- Hierarchy of control
- Maintaining control measures
- Emergency procedures – first aid, spillage and process emissions

A short test will be carried out at the end of the training session to provide the employer with evidence of course understanding.
