Apprenticeships

Met is one of the UK's leading providers of specialist vocational training, delivering a wide range of courses in Domestic Trades, Renewable Energies and the specialist Utilities sector.

Whether you are a large organisation wanting to ensure the competence of your workforce, an electrician wanting to keep up with the latest legislation, or a newcomer looking to embark upon an exciting new career in gas, plumbing or renewable energies; Met has the experience and the expertise to deliver training that really does "Create Opportunities and Change Lives".

Based in two UK Centres of Excellence, and with a reputation hard earned, we are independently assessed and accredited to ISO 9,001, ISO 14,001 and OHSAS 18,001 – quality, health, safety and the environment are at the forefront of everything we do as a business.

With accreditations to train from bodies including City and Guilds, Gas Safe, IOSH and BPEC to name but a few, we deliver personalised and focussed training in a quality learning environment.

With an underpinning philosophy that focuses our attentions to the needs of our customers and an understanding that to "stay the best, we have to train the best", we welcome enquiries about our services to allow you to understand how we really can "Create Opportunities and Change Lives".
